that he meant just what he said. For days, I've been humming on singing "Alma Mater." Well do remember the first day it was sung in chapel in the Methodist church. The words and music were written, I believe, by Sallie Powell. Since that time, it has grown dear to hundreds of G. S. C. W. girls.

Many times during the last five weeks. "Lindy Lou" has been played and sung over the radio. I always wonder if Mrs. Hines is listening in, and wonder why they don't sing "Cabin in the Pines."

That was a most interesting list of homes of Alumnae that appeared in the last Colonnade. Mental pictures come to me as I need it, pictures of Miss Scott working overtime to get that information. Well, I surely feel more at home since - I've found that eight other G. S. C. girls live somewhere in California.

Talkies at G. S. C. Girls, isn't it wonderful? Of course Mr. Thaxton didn't rest a minute until he had found another means of making the students happy. He always works so hard and patiently to secure just the things that will please them most. That lyceum course sounds interesting enought to cause one to travel even across the United States to hear it.

So G. S. C. has another thing of which to be very pround. The finest Aluma to receive a Ph. D. is a member of the college faculty. Dr. Bolton! It sounds very natural, doesn't it? She will surely be the inspiration of many other G. S. C. "girls."

Have you heard about Miss Thrash's visit to California? Then you must, and at once. You know, I believe she would have remained here indefinitely, if the call of G. S. C. had not sounded in her ears.
